- Roads

MAP DISCLAIMER

The colour on the company side along the outside of the map and in the legend correspond to the properties on the map that the companies have an interest in. If a property is depicted with two colours, then both companies represented by the colours have an interest of some type in that property. Any information that is used from the map should be verified by the user with the participating companies.

This map has been produced from the most current information available to DigiGeoData. Every attempt has been made to ensure the content, accuracy and completeness of this map. DigiGeoData assumes no responsibility for any errors, omissions and inaccuracies in the information provided.

This map is copyright by DigiGeoData and reprinting or any form of reproduction must have prior permission. Printed in Canada.

Northern Canada Minerals Endowment as of December 31, 2020

Total Endowment	49.90	727.12	42.44	7.36	88448	2424.99	710

This production includes Inferred and In-situ production. Endowment is calculated as the sum of Total Production plus Proven and Probable Reserves plus Inferred and In-situ production. A separate calculation is provided for In-situ production. Only NI 43-101 compliant reserves and resources are used in this calculation.
